ACTION	I TAKEN:					
Permit is	s hereby issued/gra	anted to demolish your				
subject	o the following con	iditions:				
1.	The demolition sl	hall be undertaken in accordance with Rule XI on protection and safety requirements for construction and demolition of				
	building/structure	e of the Implementing Rules and Regulations of the National Building Code of the Philippines (P.D. 1096) and shall be				
	under the direct r	responsibility of a full time supervising Architect or Civil Engineer in charge of demolition.				
2.		hall be undertaken only after the building has been vacated and all utility lines such as electric, gas, telephone and water				
		e been disconnected.				
3.		vork/s by this permit shall be completed within a period of () days from starting date thereof				
4.	Demolition.	utions before demolition				
	a. Precau i.	Before commencing the work of demolition of a building/structure, all gas, electric, water and other meters shall be				
	1.	removed and the supply lines disconnected, except such as are especially provided or required for use in connection				
		with the work of demolition.				
	ii.	All fittings attached to the building and connected to any street lighting system, electrical supply or other utilities shall				
		be removed.				
	iii.	All electric power shall be shut off and all electric service lines shall be cut and disconnected by the power company a				
		or outside the property line.				
	iv.	All gas, water and other utility service lines shall be shut off and cut or capped, or otherwise controlled at or outside the				
		building line. In each case, the utility company involved shall be notified in advance and its approval or cooperation obtained.				
	٧.	No electric cable or other apparatus, other than those especially required for use in connection with the demolition				
		work shall remain electrically charged during demolition operations. When it is necessary to maintain any power,				
		water, gas, or other utility lines during the process of demolition, such lines shall be temporarily relocated and				
		protected with substantial covering to the satisfaction of the utility company concerned.				
	vi.	All necessary steps shall be taken to prevent danger to persons arising from fire or explosion from leakage or				
	::	accumulation of gas or vapor, and from flooding from uncapped water mains, sewers and/or culverts.				
	vii.	All entrances/exits to and from the building shall be properly protected so as prevent any danger to persons engaged in the demolition work using such entrances/exits in the performance of their work.				
	viii.	Glazed sashes and glazed doors shall be removed before the start of demolition operations.				
5.		lays before actual demolition work is started, you are required to advise the Office of the Building Official in writing.				
6.		e with the above conditions is required subject to monitoring by this Office of the Building Official and revocation of this				
	permit in case of	violation.
